Dear Colleen

I am writing to you to give you a vote of thanks for attending our Swim Camps and to let you know that many of our swimmers have a different outlook on life since hearing you speak.

The energy you have just oozes from you while you're speaking and the goals you have set and achieved yourself are an inspiration to all. You make people realise that no mountain is too high to climb. My swimmers have set their goals since your talk and are working harder than I could ever have dreamed.

Thank you Colleen for your help and dedication to your profession, it's people like you who make people like us stand up and be counted and know we can achieve the goals we set ou'rselfes.

Thank you,

Yours in swimming

Kevin Sargent
